

## DREAMS – LYRICS

### 1. Madman State

Victims of Covid-19, God rest your soul/  
To George Floyd who couldn't breathe, God rest his soul/  
This year is like a bad dream, not much left to go/  
To all my people's chasing dreams, don't give up your goal/

It's like...

Despite the challenge we face, I'm always rising early/  
I swear my mission won't sway, I'm sticking to my journey/  
The dust has settled but got lots to sort out/  
All the lives we've lost, there's lots, shots we pour out/  
Let em know, nuttin' will break us we gotta set the tone/  
Set in stone, solid as ever its time to get involved/ All my black kings and queens,  
time to rise up/  
Manifest it by any means, before our times up/

### 3. Foley

"getting to know ones self, because I owed myself,  
Kept it on the low,  
Mmmm problems shelved  
Yeah on my jack Jones zimmie, no ones help  
did more than stay aflaot you know come like phelps  
Even tho it felt like im drowning,  
a real g would never announce it  
Just crush the ounces and blow the pain away  
Cooked for the munchies llowed the takeaway  
(Yuuuk)  
Don't get me started, I couldn't be arsed with the stuck in the house part, it didnt  
last long like house party..  
meditate by the bike path, honed those skills its a cycle got the last laugh,  
everything I wrote stayed potent,  
But yet couldn't cope, with the motions,  
Swear I had a thousand emotions,

Gotta keep it frank with the highs and lows swept like oceans,  
cap'n Morgan had kept me in the zone n i could see its a slippery slope,  
drink anymore woulda got man lindsay lohan, no balance like first time i was  
biking with no hands, fighting like gohan, all the rage coz i been doing this with  
no fam..  
Social distanced.  
People don't listen, well I did, cant lie felt like a prison... but yet ima shine like a  
prism

### 4. Mack Jehu

Tryna write a whole new chapter of this whole true capture  
certain peeps didn't survive corona in a time where we had to unite and fight like  
soldiers  
looking at the world over my shoulder had debated with my mates thinking to  
ourselves  
is the world nearly over  
whats the highs name he aint to blame but its easy to see pain on a mothers face  
that lost her son or daughter  
in such mayhem  
we call it mental slaughter the strength that brought ya nothing but tragedy and  
insanity where blm patients were brought into casualties in the calamity of the  
nitty gritty got me asking myself what going on in the city  
the death of George Floyd is one thing we cant avoid even got me annoyed at the  
system  
we all participate pay taxes and fake captives  
individually so I had touch on subjects lyrically and make negative things  
disappear into infinity  
tired of seeing negative things about us in imagery,  
they're taking liberties...

## 5. Todz

Send on the work  
Cah im good for the graft  
They can question my vision  
but can't sway my path  
Cah im hunting my dreamz  
With menalin in my skin  
and greatness in my genes  
They already know i was wild in my teens  
Class A transactions  
and the bandanna green  
We dont want no thots no bad bz  
Gimme kweens gimme kweens gimme kweens  
That glow like sun  
Got a mind of her own and a high self esteem  
Any vision that the mandem aint wid  
Then the kween is the team  
Dats the dream thats the dream thays the dream  
I would never judge another human being  
When some the best advice in life came from a fiend  
Keep the circle tight and clean  
Stay away if yur energys fishy like sea bass or bream  
How you mean places that ive been things that ive seen  
Are of nightmares and dreams  
Not reality  
Give thanks to the team cah they help keep my sanity  
Burn ganja heavy cah it help me find clarity  
Non stop grinding cah i cant live off a salary  
Teamwork mek the DreamWork  
Success is input and not charity
